CIRCUITS & DEVICES

IEEE Circuits & Devices

Editor-in-Chief — *Ronald W. Waynant*
Associate Editor-in-Chief — *John K. Lowell*
Advisory Board Chair — *Kenneth I. Werner*
Treasurer — *P.K.L. Yu*

Technology Editors

Circuits & Systems — *Chung-Yu Wu*
Electronic Devices — *Joe E. Brewer*
Lasers & Electro-Optics — *Ilko Ilev*
VLSI Designer's Interface — *Donald W. Bouldin*
The Chip — *Mohammed Ismail and Nick Tan*
Nano/Giga Systems — *Bing Sheu and Jui-Lin Lai*
Globalization Leadership — *Bing Sheu and Rong-Jian Chen*
Devices Unlimited — *Durga Misra and Joe E. Brewer*
Brain Teaser — *Butch Shadwell*

IEEE Periodicals Magazines Department

445 Hoes Lane • Piscataway, NJ 08854
Tel: +1 732 562 3950 • Fax: +1 732 981 1855
Managing Editor — *Patrick Gibbons*
Art Director — *Janet Dudar*
Assistant Art Director — *Gail A. Schnitzer*
Senior Advertising Production Coordinator — *Cathline Tanis*
Editorial Director — *Dawn M. Melley*
Production Director — *Robert Smrek*
Staff Director, Publishing Operations — *Fran Zappulla*

Advertising Sales

Business Development Manager — *Susan Schneiderman*

Features

A Perspective from the 2003 ITRS 4
MOSFET scaling trends, challenges, and potential solutions.
By Peter M. Zeitzoff and James E. Chung

The End of CMOS Scaling 16
Toward the introduction of new materials and structural changes to improve MOSFET performance.
By Thomas Skotnicki, James A. Hutchby, Tsu-Jae King, H.-S. Philip Wong, and Frederic Boeuf

The Potential of Functional Scaling 27
Beyond the power consumption challenge and the scaling roadmap.
By Albert Chin and Séan P. McAlister
