## STATEMENT TO CONTRIBUTORS

IEEE TRANSACTIONS ON SONICS AND ULTRASONICS is intended as a medium for publication of papers that emphasize the application of fundamental knowledge in sonics. Review papers, designed to bring the engineer into contact with developing trends in sonics, are also appropriate, as are papers presenting sonic data in convenient form for rapid use in design practice. The Editors reserve the privilege of making the final decision concerning the publication of any paper.

Manuscripts submitted for publication should be addressed to one of the Associate Editors (for addresses and areas of competence see inside front cover). The material should be packed flat, not rolled or folded. Manuscripts must be typewritten in double spacing on one side of paper  $8\frac{1}{2} \times 11$  in ( $21.6 \times 27.9$  cm). The original plus three copies should be submitted. Illustrations must be drawn with India ink on either white paper or drafting cloth, preferably no larger than  $8 \times 10$  in. Any photographs submitted must have a glossy finish. References are to appear as a group at the end of the paper.

Manuscripts must be carefully prepared and written in a clear concise style. The Editors emphasize the necessity of using correct English. This is important since the ultimate purpose of the publication of a paper is the dissemination of technical information and original ideas in as faithful a fashion as possible. The Editors reserve the privilege of returning to the author for revision any manuscript and illustrations which are judged by the reviewers to be either technically incorrect or which are not in the proper form for publication (i.e., do not meet the standards of this TRANSACTIONS). Since this TRANSACTIONS publishes only in English, contributors for whom English is not a native language should consult a competent colleague for the purpose of editing the original manuscript.

Each paper must be accompanied by an abstract in duplicate of not more than 200 words. The abstract should be a concise summary of the content of the paper, capable of being used in an indexing system. (Correspondence items should include an abstract of not more than 50 words.) Biographical notes and a (recent) photograph of the author(s) will be included in this TRANSACTIONS and must accompany the manuscript. The biography should be in the form used in IEEE TRANSACTIONS, consisting of three paragraphs of information: name, where and when born, degrees earned, field(s) of study, school, city, state; chief employment dates, organizations, positions held; type of work, responsibilities, present position; and professional society membership, offices, awards. The image area (head and shoulders) of the author photograph should be no larger than  $12.2 \times 15.7$  cm to ensure proper reduction.

It is recognized that prompt publication is highly desirable, and the Editors are interested in publishing papers as soon after acceptance as possible.

"Information for IEEE Authors" is available on request from the IEEE Editorial Department, 345 East 47 Street, New York, NY 10017.

**Voluntary Page Charges:** After a manuscript has been accepted for publication, the author's company or institution will be requested to pay a voluntary charge of \$95 per printed page to cover part of the cost of publication. Page charges for this IEEE journal, like those for journals of other professional societies, are not obligatory nor is their payment a prerequisite for publication. The author will receive 100 free reprints without covers if the charge is honored. Detailed instructions will accompany the galley proof.

**Copyright:** It is the policy of the IEEE to own the copyright to the technical contributions it publishes on behalf of the interests of the IEEE, its authors, and their employers, and to facilitate the appropriate reuse of this material by others. To comply with the U.S. Copyright Law, authors are required to sign an IEEE Copyright Form before publication. This form, a copy of which appears in the January 1984 issue of the journal, returns to authors and their employers full rights to reuse their material for their own purposes. Authors must submit a signed copy of this form with their manuscripts.
