

The 2nd USA-Japan Computer Conference

Tokyo Aug. 26, 27, 28, '75

Sponsored by the American Federation of Information Processing Societies and the Information Processing Society of Japan.

This international conference provides a unique opportunity for computer professionals from the two leading computer countries to meet and exchange ideas in their areas of specialization. Common and different data processing problems will be identified, and the similarities and dissimilarities of methodologies used to achieve solutions will be discussed in technical sessions.

A major exhibit will feature the latest in products and services from both countries. Post meeting technical tours will be conducted to demonstrate advanced applications in such areas as banks, railroads and steel mills.

The first USA -Japan Computer Conference was a highly successful professional event. The second conference should be even more rewarding as it's being built upon the successful experience of the first conference. Data processing specialists interested in attending should plan now toward making the simple but necessary arrangements.

To find out more about the conference, travel arrangements, accommodations, costs and arrangements, please complete the coupon below and mail it today.

Travel and Accommodations

A travel package for attending the conference costs \$699.00 and includes round trip air transportation from Los Angeles, San Francisco or New York (add \$180.00), by Japan Air Lines. Also included are 11 nights at the Tokyo Prince Hotel (add \$51.00), conference headquarters or at the Imperial Hotel, and round trip transfers between airport and hotel in Tokyo, sightseeing, travel and other services.

Special arrangements have been made for a five day side trip to Hong Kong, including accommodations at the Sheraton Hong Kong, for \$299.00. A varied program of side trips through Japan also will be available.

Families are cordially invited to accompany attendees.
