

Erratum

Corrections to “Influence of Insulator Length on the Downstream Electron Temperature and Density in the Coaxial Plasma Focus Device”

Young June Hong, Phil Yong Oh, Min Wug Moon, Hee Myung Shin, Yoonho Seo, Guangsup Cho, and Eun Ha Choi

In paper [1], the superscript 6 in (3) is incorrect

$$N_e \approx \left(\frac{\Delta\lambda_{FWHM}}{2w} \right) \times 10^6. \quad (3)$$

The correct equation is

$$N_e \approx \left(\frac{\Delta\lambda_{FWHM}}{2w} \right) \times 10^{16} [\text{cm}^{-3}]. \quad (3)$$
