Corrections to “Modulation Response of V-Groove Quantum-Wire Lasers”

Dejan M. Gvozdić and Andreas Schlachetzki

In the above paper [1, p. 5], an equation contained an error. The correct equation should read

$$D = f_r / \sqrt{I - I_{th}} = \sqrt{\Gamma \cdot \nu_g \cdot g' / qV_a} / 2\pi.$$

Manuscript received May 2, 2005.

D. M. Gvozdić is with The Royal Institute of Technology, Laboratory of Optics, Photonics and Quantum Electronics and the Kista Photonics Research Center, 164 40 Kista, Sweden, on leave from the University of Belgrade, Belgrade 11000, Yugoslavia (e-mail: gvozdic@imit.kth.se).

A. Schlachetzki is with the Technical University Braunschweig, Institute for Semiconductor Technology, D-38106, Braunschweig, Germany.
