## Correction to "On Diagonally Weighted Conformal Mapping"[1]

F. M. CALLIER AND J. WINKIN

The transactions brief in the above paper,[1] was inadvertently published prior to the receipt of the corrected galley proofs and some errata have occurred. The following corrections are made with the apologies of the Editor.

(1) The name of the second author is J. WINKIN (not J. WINKEN).

(2) Formula (27) should read:

$$H(s) = \mathrm{diag}\left[\left(\frac{1-s}{2}\right)^{\delta_i}\right]_{i=1}^{m} \cdot P\left((1-s)(1+s)^{-1}\right)$$

$$\cdot \mathrm{diag}\left[\left(\frac{1+s}{2}\right)^{\delta_i}\right]_{i=1}^{m}.$$
