## Correction to “Electroactive Polymer-Based Devices for e-Textiles in Biomedicine”

Federico Carpi and Danilo De Rossi

In the above paper [1], there are several corrections.

In the third paragraph of Section IV-A on page 299, the phrase “carbon-loaded elastomers (CLRs)” should read “carbon-loaded rubbers (CLRs).”

Throughout the paper, “BMIM BF<sub>4</sub>” should read “[BMIM] [BF<sub>4</sub>],” “EtNH<sub>3</sub>NO<sub>3</sub>” should read “[EtNH<sub>3</sub>] [NO<sub>3</sub>],” and “BMIM BF<sub>6</sub>” should read “[BMIM] [BF<sub>6</sub>].”

In the first paragraph of the second column on page 302, “(NaClO<sub>4</sub>)d” should read “(NaClO<sub>4</sub>).”

The caption of Fig. 12 on page 303 should read, “Dielectric elastomer actuators with (a) roll, (b) tube, and (c) new double-helix electroded configuration.”

In the fourth paragraph on page 312, “3–5 Wh/Kg” should read “3–5 Wh/kg.”
