Correction to "Definition and Classification of Power System Stability"

In the August issue, the paper "Definition and Classification of Power System Stability" by the IEEE/CIGRE Joint Force on Stability Terms and Definitions (pp. 1387–1401) mistakenly showed the month of "May" instead of "August" in the header across the top. The IEEE apologizes to the IEEE/CIGRE Joint Force on Stability Terms and Definitions and to its readers for the error.

Correction to "A Multiple Objective Evolutionary Approach for the Design and Selection of Load Control Strategies"

In the May 2004 issue, the paper "A Multiple Objective Evolutionary Approach for the Design and Selection of Load Control Strategies" by Alvaro Gomes, Carlos Henggeler Antunes, and António Gomes Martins (pp. 1173–1180) featured the incorrect placement of " $\min v_1$ " above Equation (5) [p. 1176]. Instead, " $\min v_1$ " should have appeared above Equation (2) rather than above Equation (5).
