

*Semiconductor and Organic Lasers and Amplifiers*

Self-Assembled Two-Dimensional Surface Structures for Beam Shaping of GaN-Based Vertical-Injection Light-Emitting Diodes .....	<i>M.-A. Tsai, P. Yu, C. H. Chiu, H. C. Kuo, T. C. Lu, and S. H. Lin</i>	12
Mechanism Investigation of p-i-n ZnO-Based Light-Emitting Diodes .....	<i>C.-T. Lee, Y.-H. Lin, L.-W. Lai, and L.-R. Lou</i>	30
Polarization Control in Buried Tunnel Junction VCSELs Using a Birefringent Semiconductor/Dielectric Subwavelength Grating .....	<i>M. Ortsiefer, M. Görblich, Y. Xu, E. Rönneberg, J. Roskopf, R. Shau, and M.-C. Amann</i>	15
Wavelength Tunable Laser Using an Interleaved Rear Reflector .....	<i>J. P. Engelstaedter, B. Roycroft, F. H. Peters, and B. Corbett</i>	54

*Fiber and Waveguide Amplifiers and Lasers*

Tunable Passively Q-switched Erbium-Doped Fiber Laser With Carbon Nanotubes as a Saturable Absorber .....	<i>D.-P. Zhou, L. Wei, B. Dong, and W.-K. Liu</i>	9
---	---	---

*Propagation and Waveguiding*

Reduction of AlGaAs Heterostructure High-Index-Contrast Ridge Waveguide Scattering Loss by Sidewall Smoothing Through Oxygen-Enhanced Wet Thermal Oxidation .....	<i>C. S. Seibert, D. C. Hall, D. Liang, and Z. A. Shellenbarger</i>	18
---	---	----

*Passive Components*

Proposal and Design of a Photonic In-Fiber Fractional Hilbert Transformer .....	<i>C. Cuadrado-Laborde</i>	33
Design of Crystal-Type Multiport Optical Quasi-Circulator .....	<i>J.-H. Chen, K.-H. Chen, H.-Y. Hsieh, and F.-H. Hsu</i>	48
Interleaver Using an Arrayed-Waveguide Grating-Lens-Grating Configuration for Spectrally Efficient Systems .....	<i>C. R. Doerr, L. L. Buhl, M. A. Cappuzzo, E. Y. Chen, L. T. Gomez, F. P. Klemens, and R. C. Keller</i>	6

*Active Components*

Silicon-Based Thermo-Optically Tunable Photonic Crystal Lens .....	<i>Y. Cui, K. Liu, S. Foland, K.-H. Choi, M. Tinker, D. MacFarlane, and J.-B. Lee</i>	21
--	---	----

*Wavelength Converters*

Wavelength Conversion of High-Speed Phase and Intensity Modulated Signals Using a Highly Nonlinear Chalcogenide Glass Chip .....	<i>M. D. Pelusi, F. Luan, S. Madden, D.-Y. Choi, D. A. Bulla, B. Luther-Davies, and B. J. Eggleton</i>	3
--	--	---

*Measurements*

<i>In Situ</i> Interferometric Monitoring of Fiber Insertion in Fiber Connector Components .....	<i>J. Van Erps, A. Pakula, S. Tomczewski, L. Salbut, M. Vervaeke, and H. Thienpont</i>	60
--	--	----

(Contents Continued on Page 2)

---

*Sensors*

High-Temperature Sensing Using Miniaturized Fiber In-Line Mach–Zehnder Interferometer ..... 39  
..... *Y. Wang, Y. Li, C. Liao, D. N. Wang, M. Yang, and P. Lu*

*Analog and RF Photonics*

Filter-Free Optically Switchable and Tunable Ultrawideband Monocycle Generation Based on Wavelength Conversion  
and Fiber Dispersion ..... 42  
..... *Z. Hu, J. Sun, J. Shao, and X. Zhang*  
Microwave Generation Based on Optical Domain Microwave Frequency Octupling ..... 24  
..... *W. Li and J. Yao*

*Subsystems*

2R Regeneration of Time-Interleaved Multiwavelength Signals Based on Higher Order Four-Wave Mixing in a Fiber ...  
..... 27  
..... *N. S. Mohd Shah and M. Matsumoto*  
Nonsingular Constant Modulus Equalizer for PDM-QPSK Coherent Optical Receivers ..... 45  
..... *A. Vgenis, C. S. Petrou, C. B. Papadias, I. Roudas, and L. Raptis*  
Novel Method of Generating QAM-16 Signals at 21.3 Gbaud and Transmission Over 480 km ..... 36  
..... *S. Makovejs, D. S. Millar, V. Mikhailov, G. Gavioli, R. I. Killey, S. J. Savory, and P. Bayvel*

*Networks and Systems*

Orthogonal Basis Expansion-Based Phase Noise Estimation and Suppression for CO-OFDM Systems ..... 51  
..... *C. Yang, F. Yang, and Z. Wang*  
Performance of Forward-Error Correction Code in 10-Gb/s RSOA-Based WDM PON ..... 57  
..... *K. Y. Cho, A. Agata, Y. Takushima, and Y. C. Chung*
