

IEEE TRANSACTIONS ON SIGNAL PROCESSING

A PUBLICATION OF THE IEEE SIGNAL PROCESSING SOCIETY

www.ieee.org/sp/index.html

MARCH 2004

VOLUME 52

NUMBER 3

ITPRED

(ISSN 1053-587X)

PAPERS

<i>Multichannel Data Processing Theory</i>	
A Fused Hidden Markov Model With Application to Bimodal Speech Processing.	573
. <i>H. Pan, S. E. Levinson, T. S. Huang, and Z.-P. Liang</i>	
Performance Analysis of Minimum ℓ_1 -Norm Solutions for Underdetermined Source Separation	582
. <i>I. Takigawa, M. Kudo, and J. Toyama</i>	
<i>Methods of Sensor Array and Multichannel Processing</i>	
A Covariance Fitting Approach to Parametric Localization of Multiple Incoherently Distributed Sources	592
. <i>S. Shahbazpanahi, S. Valaee, and A. B. Gershman</i>	
Source Localization With Distributed Sensor Arrays and Partial Spatial Coherence	601
. <i>R. J. Kozick and B. M. Sadler</i>	
<i>Multichannel Signal Processing Applications</i>	
Optimal Minimum Distance-Based Precoder for MIMO Spatial Multiplexing Systems	617
. <i>L. Collin, O. Berder, P. Rostaing, and G. Burel</i>	
<i>Signal Detection and Estimation</i>	
Data-Driven and Optimal Denoising of a Signal and Recovery of Its Derivative Using Multiwavelets.	628
. <i>S. Efromovich, J. Lakey, M. C. Pereyra, and N. Tymes, Jr.</i>	
Split Wiener Filtering With Application in Adaptive Systems	636
. <i>L. S. Resende, J. M. T. Romano, and M. G. Bellanger</i>	
A <i>Posteriori</i> Joint Detection and Discrimination of Pulses in a Quasiperiodic Pulse Train.	645
. <i>A. V. Kel'manov and B. Jeon</i>	
FIR Channel Estimation Through Generalized Cumulant Slice Weighting	657
. <i>J. Liang and Z. Ding</i>	
<i>Filter Design and Theory</i>	
An Improved Delay-Dependent H_∞ Filtering of Linear Neutral Systems.	668
. <i>E. Fridman and U. Shaked</i>	
On Simplified Order-One Factorizations of Paraunitary Filterbanks.	674
. <i>L. Gan and K.-K. Ma</i>	
LUT Filters for Quantized Processing of Signals	687
. <i>R. L. de Queiroz and P. A. Stein</i>	

(Contents Continued on Back Cover)

Signal Processing for Communications

Properties of Space-Time Codes for Frequency-Selective Channels *M. Qin and R. S. Blum* 694

Signal Detection for MIMO-ISI Channels: An Iterative Greedy Improvement Approach *Y. Wu and S.-Y. Kung* 703

Near-Optimum Soft Decision Equalization for Frequency Selective MIMO Channels *S. Liu and Z. Tian* 721

MIMO Decision Feedback Equalization from an H^∞ Perspective *A. T. Erdogan, B. Hassibi, and T. Kailath* 734

Signal Transmission, Propagation, and Recovery

Data-Aided and Blind Stochastic Gradient Algorithms for Widely Linear MMSE MAI Suppression for DS-CDMA
. *R. Schober, W. H. Gerstacker, and L. H.-J. Lampe* 746

Realizable Linear and Decision Feedback Equalizers: Properties and Connections *R. López-Valcarce* 757

Equalization and Semi-Blind Channel Estimation for Space-Time Block Coded Signals Over a Frequency-Selective Fading
Channel *J. Choi* 774

Tracking of Fast-Fading Channels in Long-Code CDMA *Y. Sung and L. Tong* 786

A RAKE-Based Iterative Receiver for Space-Time Block-Coded Multipath CDMA *S. K. Jayaweera and H. V. Poor* 796

Multidimensional Signal Processing

Optimum Asymmetric Half-Plane Autoregressive Lattice Parameter Modeling of 2-D Fields *A. H. Kayran and I. Erer* 807

CORRESPONDENCE

Signal Processing for Communications

Space-Time Bit-Interleaved Coded Modulation for OFDM Systems *I. Lee, A. M. Chan, and C.-E. W. Sundberg* 820

Signal Transmission, Propagation, and Recovery

Multuser Detection for Packet-Switched CDMA Networks With Retransmission Diversity *Y. Sun and X.-D. Cai* 826

Multidimensional Signal Processing

Two-Dimensional Adaptive Filtering Based on Projection Algorithm. *H. Fan and C. Wen* 832

EDICS—Editor’s Information Classification Scheme 839

Information for Authors 840

ANNOUNCEMENT

Call for Papers—IEEE TRANSACTIONS ON SIGNAL PROCESSING Supplement on Secure Media 842

Call for Papers—IEEE TRANSACTIONS ON SIGNAL PROCESSING Special Issue on Signal Processing Aspects of Brain
Imaging. 843

Call for Papers—IEEE TRANSACTIONS ON SPEECH AND AUDIO PROCESSING Special Issue on Data Mining of Speech,
Audio, and Dialog 844
