**About the Journal:** PROCEEDINGS OF THE IEEE covers important technical developments in the areas of electronics, electrical and computer engineering, and computer science. Papers in the PROCEEDINGS are survey, review, or tutorial in nature and offer applications-oriented coverage that goes beyond the traditional boundaries typically found in other journals. PROCEEDINGS papers are thus highly valued by the core research community, as well as specialists in other areas, looking to quickly come up to speed with the latest and more promising advances in areas outside of their own field. For more information, please visit: <http://proceedingsoftheieee.ieee.org/about-proceedings-of-the-ieee/>

**Special Issue Proposal Submissions:** PROCEEDINGS OF THE IEEE publishes nine to ten special issues per year. Special Issues are led by distinguished Guest Editor teams and serve as a guide to the state-of-the-art in a particular area. The PROCEEDINGS editorial board invites proposals for special issues on all emerging topics in the areas covered by the journal. For instructions on preparing and submitting your special issue proposal, please visit:

<http://proceedingsoftheieee.ieee.org/instructions-for-guest-editors/>

**Regular Paper Submissions:** PROCEEDINGS OF THE IEEE publishes two to three regular paper issues per year. Regular papers cover more focused topics, giving readers background and insight into emerging areas. For instructions on preparing and submitting a regular paper, please visit:

<http://proceedingsoftheieee.ieee.org/instructions-for-authors/>

**Copyright:** It is the policy of the IEEE to own the copyright to the technical contributions it publishes on behalf of the interests of the IEEE, its authors, and their employers and to facilitate the appropriate reuse of this material by others. To comply with the U.S. Copyright Law, authors are requested to sign an IEEE copyright form before publication. This form, a copy of which is found in the most recent January issue of the journal, returns to authors and their employers rights to reuse their material for their own purposes.
