Ultraweak Simultaneous Signal Detection With Theoretical Phase Calculation Approaches, by M. Y. Lanzerotti and C. L. Cerny: DOI: No. 10.1109/TAES.2015.140347.

In the article, “Ultraweak Simultaneous Signal Detection With Theoretical Phase Calculation Approaches” by M. Y. Lanzerotti and C. L. Cerny, DOI: No. 10.1109/TAES.2014.140347, published in the *IEEE Transactions on Aerospace and Electronic Systems* 51, 2 (2015) page 884–893, Figure 1 on page 889 has been cropped too much on the left side so the vertical axis numbers and the vertical axis label are not complete. Please refer to the figure in this erratum for correct axis numbers and axis label.

Improved Reliability-Based Decision Support Methodology Applicable in System-Level Failure Diagnosis and Prognosis By B. U. Kim, D. Goodman, M. Li, J. Liu, and J. Li DOI: No. 10.1109/TAES.2014.120637.

The acknowledgment of Federal Funding (NSF Grants (CMMI-1100949, CMMI-1069246 and CMMI-1149602)) was inadvertently left off the article “Improved Reliability-Based Decision Support Methodology Applicable in System-Level Diagnosis and Prognosis,” published in the *IEEE Transactions on Aerospace & Electronic Systems* 50, 4 (2014) on pages 2630-2641.
