

Corrections to “Enhanced Performance Love Wave Magnetic Field Sensors With Temperature Compensation”

Yang Yang¹, Graduate Student Member, IEEE, Harshad Mishra, Member, IEEE, Prince Mengue, Student Member, IEEE, Sami Hage-Ali², Member, IEEE, Sébastien Petit-Watelot, Daniel Lacour, Michel Hehn, Hamid M’Jahed, Tao Han¹, Member, IEEE, and Omar Elmazria², Senior Member, IEEE

In the above article [1], by Yang *et al.*, published in IEEE SENSORS JOURNAL, volume 20, issue 19, pp. 11292–11301, in 2020, we would like to correct the coauthor Daniel Lacour’s biography on page 11300.

The correct sentences of the coauthor Daniel Lacour’s biography in [1] are as follows:

Daniel Lacour is a Condensed Matter Physicist. After a Ph.D. (1999–2002) dedicated to tunnel magneto-resistance and its applications (done in close collaboration between Université de Lorraine and the laboratory of A. Fert (A. Fert is the 2007 Nobel Prize winner), he worked as a Postdoctoral Fellow at the Hitachi GST Laboratory of San Jose, San Jose, CA, USA (2003–2005). During this period, he studied magnetic nano-devices. In 2006, he was appointed to the

National Center for Scientific Research (CNRS), Nancy, France, as a Research Staff Member. His field of expertise addresses spintronic and nanomagnetism. Taking profit of the fundamental knowledge he has acquired on the behavior of magnetic materials at the micro/nanoscale, he spent a part of his research time on the development of sensors having a working principle based on magnetic material.
