

Comments and Corrections

Corrections to “Towards the *In Situ* Detection of Individual He₂* Excimers Using a Ti TES in Superfluid Helium”

Faustin W. Carter , Scott A. Hertel, Michael J. Rooks, Daniel N. McKinsey, and Daniel E. Prober

In [1], there is an error in (1). The corrected equation is below. The difference is in the denominator, which should be modified as follows:
 $2\beta_I \rightarrow 2 + \beta_I$.

The corrected equation reads

$$\alpha_T = \frac{2\alpha_I + \frac{n}{\phi}\beta_I}{2 + \beta_I}. \quad (1)$$
