In [1], there is an error.

The erratum in this article is the FCGR data shown in Fig. 10(b). The Fig. 10(b) shall be replaced with the following figure.

The correction does not affect the basic argument of Section III of the original article, in which the FCGR data of the material is shown to satisfy the ITER IO requirements.

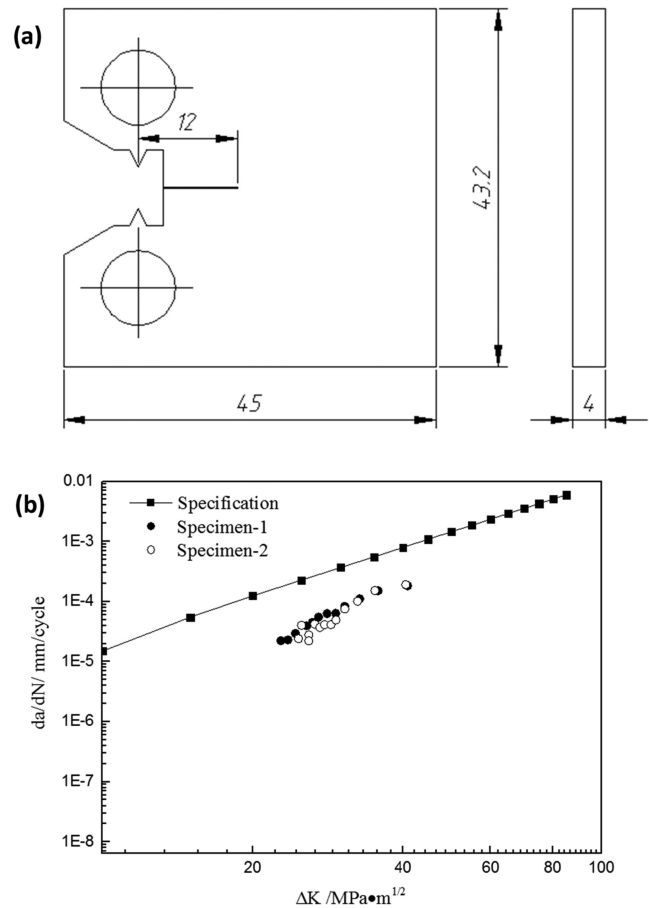

Fig. 10. FCGR of the material. (a) Schematic drawing of the testing specimen. (b) Testing result.
