Message from the General Chair
CDS 2020

On behalf of the committee, we are honored to present the proceedings of the 2020 International Conference on Computing and Data Science (CONF-CDS 2020), hosted by Eliwise Academy.

CONF-CDS 2020 is an annual leading conference on computing technology, computer science and data science. We are open to international participants, to whom we offer an excellent opportunity to share new research results and promote cooperation. Our objective is to bring together researchers and practitioners from academic and industry to highlight the importance of this field as well as establish new collaborations.

All submitted papers have gone through a strict and careful peer-review process by qualified reviewers who are professionals in computing technologies and data science. They paid great effort to ensure the quality of the papers published in our conference proceedings and select outstanding authors to give oral presentations about their research.

We would like to express our sincere gratitude to every participant of CONF-CDS 2020 and Conference Publishing Services. Hope all of you can draw inspirations and attainments from our proceedings.

With our warmest regards,

Hang Lu
CDS 2020 General Chair
