In the above article [1], reference 35 was retracted. As the work in this reference is no longer reliable, we are removing it from the reference list.

The corresponding discussion in Section I:

“Moreover, the evDRSs for the chorded cycles was investigated in [35]. The authors demonstrated that the minimum cardinality of the evDRSs is exactly one more than the MD”

is suggested to be removed without any replacement, as the authors believe this adjustment will not affect the overall findings and conclusions of the study.
