#### Notice of Retraction

G. Lv, Z. Zhang and Y. Liu, "Electromagnetic Characteristics Analysis of Superconducting Electrodynamic Suspension System With Rolling Transient Condition," in IEEE Transactions on Applied Superconductivity, vol. 32, no. 7, pp. 1–9, Oct. 2022.

After careful and considered review of the content of this article by a duly constituted expert committee, this article has been found to have violated IEEE publication principles. Specifically, this article copied content from the following source without appropriate reference:

Minoru Tanaka; Noriyuki Takahashi; Masao Suzuki; Ryohei Ikeda; Sei Nagasaka, "Development of the On-board Maintenance Management System for Ground Coils of Maglev by Using RFID Technology" Railway Technical Research Institute Report, March 2011.

Therefore, IEEE has retracted the content of this article from Xplore. When informed of the decision to retract, the authors disagreed with the retraction.
